■ EMPLOYMENT HISTORY

UX & UI Designer at This is Deploy

October 2022 - present

Working as an IT-consultant with focus on UX and UI Design. The work involves user interviews, user research, creating personas and user stories. Furthermore, creating design systems and logos, designing and redesigning websites and applications.

Technical Project Manager at Lime Technologies

August 2020 - September 2022

Leading three or more projects at the same time, implementing Lime CRM to customers. The CRM system is adapted to each customer to fit their special needs and make it user friendly, often using SQL. To understand the users, workshops and user trainings are held. Using CSS and JavaScript, customer forms are designed and implemented.

UX/User research (Master Thesis) at Schibsted

January 2020 - June 2020

The study was conducted through 10 semi-structured interviews to investigate how rich content can enhance digital news stories and widen the audience. Responsible for user research and UX-design recommendations.

Career Fair Host at THS Armada KTH

August 2017 - December 2017

Career fair host at Scandinavia's largest career fair, Armada. Part of planning and designing the Green room. The Green room was the room with environmentally friendly companies.
